HLMDI Communities News-In collaboration with its international communities of practice the Responsible Pécs umbrella project aims at screening and sharing youth driven ideas for reinforcing the image of the city of Pécs as a Healthy Sustainable and Responsible city hosting a wide range of cultures.

Responsible Pécs examines "Responsible City Governance" from a decentralization perspective. The umbrella project fosters 15 sub-projects seeking innovations for improving the role and impact of the public sector, the third sector, the university, the industry, the international community of Pécs in terms of youth engagement in sustainability, social responsibility and health
